

**Bill's Closings**  
**Tuesday Seattle KP Cancer Support Group**

**MAY 7, 2019**

A father said to his young son, "My boy, it's time I told you about the facts of life." The dad was stumped right away by the son's first question: "How many facts are there?"

When we first come to Group we expect answers and solutions. However, week after week we discover there are hundreds of facts about cancer, an overflow of information to sort through and more unanswered questions than reliable answers.

Son Group is like a wise, patient dad who takes his time to help his son understand the facts of...well, the facts of life living with cancer.

With you I am listening to dad...er, Group,

Bill
